

What is SchoolMessenger?

SchoolMessenger enables school administration to efficiently communicate with our families via an automated system. The primary use of the system will be to notify you of delayed openings, early dismissals, school closings, and emergencies. This will enable the district to disseminate information to each of our families in the most time efficient manner possible in a variety of methods - including phone calls, email, and text message.

Please fill out and return the following information:

Parent/Guardian name: _____

Student's name: _____

First contact phone number: _____
